Looking Back at September

At our Toddler Group during September, we have been thinking together about how we can care for our wonderful planet.

Through our crafts, we explored three simple things we can all do:

- 💧 Turn off the tap and save water
- 💡 Switch off lights when we don't need them
- ♻️ Recycle and reuse wherever we can

The Bible reminds us that creation is something precious that we have a part in caring for: "The earth is the Lord's, and all that is in it." Psalm 24:1

What small thing could you do today to help care for God's wonderful world?

Upcoming

5th October Autumn Wreaths

12th October Spooky Strip Fun

19th October Fork Pumpkins

26th October HALF TERM

Looking Forward

Bonfires remind us how important light and warmth can be, especially as the evenings get darker and colder. In the Bible, light is often used as a picture of God's presence and love. Jesus says, "You are the light of the world" (Matthew 5:14), reminding us that even small lights can make a difference in the darkness.

As we make our own bonfire creations on 2nd November, we'll be thinking about the little things we can do to bring light, warmth and kindness to the people around us.
